

REMARKS

Specification and Claim Amendments

5 Claims 23 and 33 are amended, as indicated above. In addition, paragraph 0047 is amended, as indicated above. During an interview with the Examiner on May 12th, 2010, the Examiner indicated that amending claims 23 and 33 and paragraph 0047 of the specification, as indicated above, would not affect the allowability of the claims.

10 Applicant submits that the term “computer-readable medium” is inherently supported by the specification which describes computer systems that include memory devices. Accordingly, Applicant submits that the proposed claim and specification amendments do not add new matter to the claims or specification. Claims 1-8, 10-14, and 17-35 remain in the application.

Conclusion

15 All of the claims are in condition for allowance. Accordingly, Applicant requests entry of the claim amendments and allowance of the application. If any issues remain, Applicant respectfully requests a telephone call to resolve the issues.
